

LANactive Industry

Solution for Surveillance and Security Applications

LANactive Industry solution for surveillance and security applications

Nexans is a world-leading, global cable manufacturer. The group is a key player in the energy infrastructure, industry, building and local data network markets.

Nexans provides an expanding range of network components and for Video Surveillance and Security applications in the office and for harsh environments.

Nexans is a one-stop shop for professional network infrastructure for IP Video Surveillance, Security and Building Management (BMS) projects:

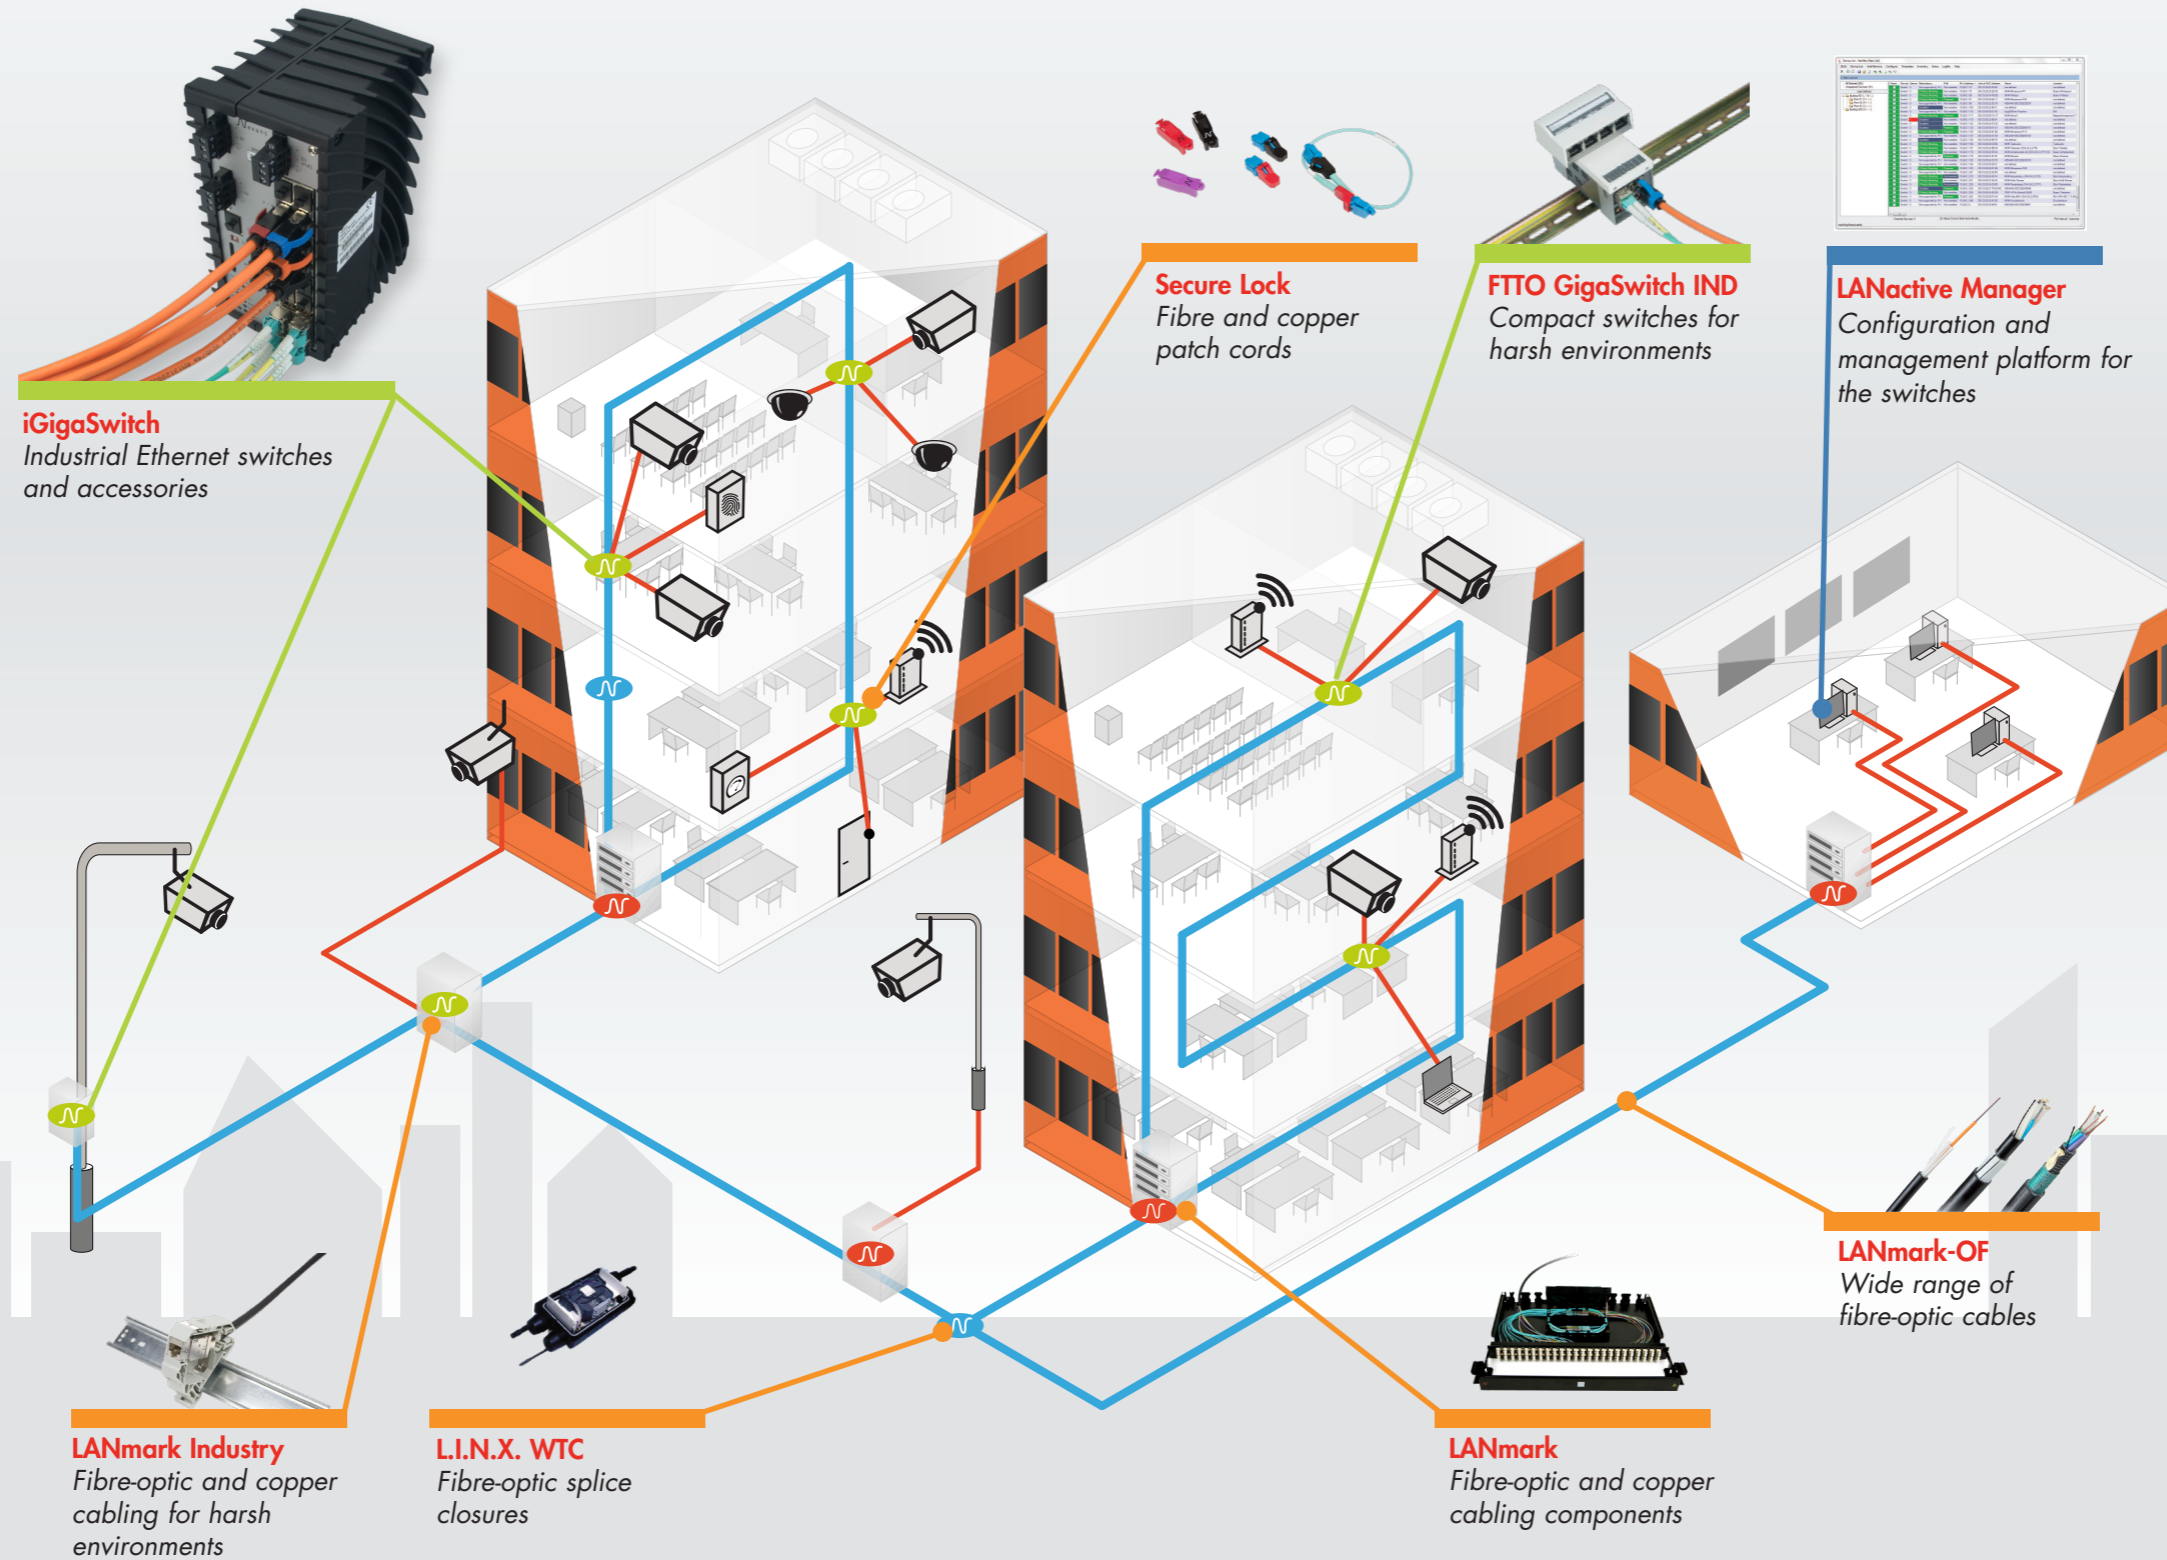

- intelligent industrial Ethernet switches designed for harsh environments with high number of PoE+ ports
- extensive portfolio for cabling systems
- first class support
- warranty for installed equipment

LANactive Industry solution benefits:

- maximum reliability and longest life time in harsh environments
- flexibility
- network availability
- network security
- easy maintenance
- no separate power cabling needed
- independency of any hardware supplier
- highest quality
- first time right

Power over Ethernet

LANactive supports IP connections with PoE and PoE+. It's not necessary to install new electrical circuits to power your IP cameras, access, BMS sensors and other devices.

Product range

Switches

- Wide range of managed DIN-rail mounted industrial Ethernet switches with up to 12x PoE/PoE+ ports (360W power budget)
- Excellent performance in harsh environments (-40...+85°C, EMC, vibration etc.)
- Ruggedized variant of compact FTTO switches
- Wide range of power supplies and accessories

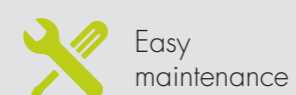

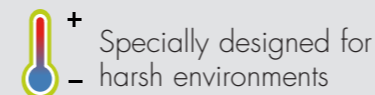

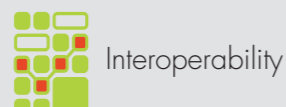

Cabling

- Extensive range of copper and fibre products for your cabling infrastructure
- Wide set of special products for applications in harsh environments
- Various fibre-optic splice closures
- DIN-rail mounted equipment and accessories
- Ruggedized fibre patch cords
- SecureLock copper and fibre patch cords and accessories

Network Management

- Configuration and management platform for the switches
- Intelligent infrastructure management system
- System for monitoring of power, environment and access control
